Seokjin Hong

Overseas Sales Representative · PPG & Polyol · Asia-Pacific & Europe

PROFESSIONAL SUMMARY

Market intelligence and commercial strategy professional at Kumho Petrochemical — managing B2B sales and PPG pricing strategy across Asia-Pacific and European markets. Translates customs trade data and competitive analysis into pricing decisions that balance margin targets with market penetration. I take a structured, data-first approach to problem-solving: building from numbers toward decisions. Alongside full-time work, building **BOOK ME UP (BMU)**, a calendar-based social scheduling app, as Project Manager.

PROFESSIONAL EXPERIENCE

Kumho Petrochemical Jan 2024 – Present

Overseas Sales Representative, PPG Sales Team

- Designed and optimized PPG pricing strategy through competitive benchmarking, cost structure assessment, and monthly demand forecasting — balancing revenue maximization with market penetration while maintaining margin targets.
- Monitored Ethylene Oxide (EO) and Propylene Oxide (PO) raw material price fluctuations across Asia-Pacific and European markets to inform pricing decisions and manage input cost exposure.
- Pre-processed, refined, and analyzed customs trade data to surface competitor positioning shifts, emerging market patterns, and trade policy impacts.
- Compiled estimated P&L statements and coordinated inter-departmental meetings across R&D, Sales, and Production teams.
- Tracked anti-dumping policy developments and import/export trends relevant to the PPG market.

Hanjin Jan 2023 – Sep 2023

Operation Associate

- Managed inbound international shipments, ensuring timely arrival and efficient domestic distribution, while administering Amazon SLA compliance.
- Oversaw on-site field operations and facilitated multilingual communication across a cross-border stakeholder environment.

PROJECTS

BOOK ME UP (BMU) 2024 – Present

Project Manager & Product Planning Lead · Side Project (alongside full-time role)

- Developing a calendar-based social scheduling app that eliminates the repetitive 'when are you free?' exchange — enabling users to find shared availability through a shared calendar view rather than open-ended messages.
- Managing end-to-end project execution: product concept definition, feature scoping, UX direction, privacy & security review, and beta testing preparation.
- Applying structured problem-framing and project management discipline developed through international business to a consumer product context.

CERTIFICATIONS

International Trade Specialist Lv.1 · Trade English Certificate Lv.1 · Foreign Exchange Specialist Lv.2

All issued in Korea · KITA (Trade Specialist & Trade English) · KOFIA (Foreign Exchange Specialist)

PUBLICATION

"Implications of the Shifting Indian Defense Market for Korea: Focusing on Indo-Russia Relations" First Author · May 2021

Explored how South Korean defense firms benchmarked Russia's approach to enter the Indian market, with a comprehensive analysis of defense capabilities and policies across India, Russia, and South Korea.
